

## **ASSEMBLY INSTRUCTIONS**

## **Follow These Steps**

**1** Insert Hanger Rod into desired position within the plastic hub and slide back cover inside of hub as shown in figure "A".

- **2.** Snap item # 2a & 2b into item # 1.
- **3.** Snap item # 3 into item # 1.
- **4.** Slide item # 4a over item # 3 and secure with Quick-Release Pin # 6.
- **5.** Slide item # 4b over item # 5 and secure with Quick-Release Pin # 6.
- **6.** Snap item # 5 into item # 3.
- Lean assembled unit against wall.
  Vertical post has to be parallel with wall.
  Rubber feet of item # 2 should be equal distance from wall.
- **8.** Adjust height of item # 4a so tires of bicycle are off the ground.
- **9.** Adjust height of item # 4b so tires clear the lower bicycle.
- **10.** Always center bicycles on hanger arms (4a & 4b).
